About the Arizona Criminal Justice Commission

Our mission is to continuously address, improve, sustain and enhance public safety in the State of Arizona through the coordination, cohesiveness, and effectiveness of the Criminal Justice System.

The Arizona Criminal Justice Commission (ACJC) is a statutorily authorized entity mandated to carry out various coordinating, monitoring and reporting functions regarding the administration and management of criminal justice programs in Arizona. In accordance with statutory guidelines, the Commission is comprised of 19 members who represent various elements of the criminal justice system in Arizona. Fourteen of the 19 Commissioners are appointed by the Governor and are municipal, county or elected officials. The remaining five are state criminal justice agency heads. Appointed Commissioners serve for two years which expire when the first regular session of the legislature is convened; they may be re-appointed.

ACJC was created in 1982 to serve as a resource and service organization for Arizona's 480 criminal justice agencies on a myriad of issues ranging from drugs, gangs, victim compensation and assistance to criminal record improvement initiatives. The ACJC works on behalf of the criminal justice agencies in Arizona to facilitate information and data exchange among statewide agencies by establishing and maintaining criminal justice information archives, monitoring new and continuing legislation relating to criminal justice issues, gathering information, and researching existing criminal justice programs. Our mission is to sustain and enhance the coordination, cohesiveness, productivity, and effectiveness of the criminal justice system in Arizona.

Executive Summary

The first regular session of the 54th Arizona State Legislature ran 134 days with sine die occurring at 12:58 AM on May 28, 2019. There were a total of 1,318 bills introduced and 100 resolutions introduced. Governor Ducey signed 320 bills into law and 11 were vetoed. The Arizona Criminal Justice Commission (ACJC) tracked 145 bills that affected the criminal justice system overall. Of the 145 bills that ACJC tracked, 36 were successfully signed into law.

The session began with the Governor's State of State address in which he outlined key themes he wished to see the legislature focus on. These themes are as follows:

- Securing water
- Removing unnecessary laws
- Revoking legislative immunity
- School Safety
- Education/pay raises for teachers
- Universal recognition for all occupational licenses
- Protecting public safety/reducing prison population
- Reducing unemployment
- Rebuilding the rainy-day fund
- Securing the Arizona border

Of the bills introduced this session, the primary Arizona Revised Statutes (ARS) categories with the most bills were:

- Title 13- Criminal Code
- Title 15 – Education
- Title 28 - Transportation
- Title 36 – Public Health
- Title 41- State Government

Even though these were the primary categories that the Governor signed bills into law, more robust laws were passed in Public Officers and Employees.

Of the 320 bills the Governor signed, the primary ARS categories with the most bills were:

- Title 15- Education
- Title 20 - Insurance
- Title 28- Transportation
- Title 32- Profession and Occupation
- Title 36 - Public Health and Safety
- Title 41- State Government
- Title 42 - Taxation

This tells us that the legislature's priorities closely matched those of the Governors priorities.

The legislature this session was comprised of the following make up:

	Republicans	Democrats
House	31	29
Senate	17	13

ACJC Priority Legislation

The following is legislation that the ACJA deemed a priority in the list of already tracked items.

Overview of SB1250

Senate Bill 1250 (Injunction against Harassment; Sexual Violence) sponsored by Senator Steele was introduced this session to provide greater protections for victims of sexual assaults in the injunctions against harassment process. The current statute states ARS §15-119, "Instances" (plural) meaning they would have to be a victim of sexual violence more than once to be able to seek protection from the court. The proposed fix to the existing law would only require one instance (instead of two) to seek protection from the courts for that matter. This was a small step but an important one for victims.

Bills Introduced Pertaining to Regulating Distracted Driving/Traffic Violations

This session, ACJC tracked nine bills that regulated distracted driving and traffic violation consequences. Texting while driving bills gained a lot of traction and led to bipartisan bills being introduced to help solve the public safety concern. With the increased amount of traffic violations it brought attention to the consequences and how to handle them fairly. The following is a list of bills signed into law.

HB2005 Traffic Survival School

The Department of Transportation is required, instead of allowed, to require a person who is convicted of an offense in another jurisdiction that would be grounds for suspension or revocation of a driver license if committed in Arizona to successfully complete approved traffic survival school.
