

FY 2020 National Criminal History Improvement Program

Project Period: January 1, 2021 to December 31, 2022

The FY 2020 NCHIP solicitation has been released and is posted on the BJS website:

https://www.bjs.gov/content/pub/pdf/nchip20_sol.pdf. This program furthers the Department's mission by enhancing the criminal justice capabilities of state and tribal governments by improving the accuracy, utility, and interstate accessibility of criminal history records and enhancing records of protective orders, automated identification systems and other state systems supporting national records systems and their use for criminal history background checks. This year's program focuses on priority on improving dispositions and mental health submissions accessible to the National Instant Criminal Background Check System (NICS), including full participation in the National Crime Information Center (NCIC), criminal history record information available through the Interstate Identification Index (III) and National Fingerprint File (NFF). For the purpose of this solicitation, "state" includes the District of Columbia and U.S. territories. ***In other words, an essential outcome of funded activities is that they result in more records being available in these systems. (Solicitation pages 5-8)***

Projects in the past have included correcting backlogged/incomplete criminal history records, connecting to the ADRS system for criminal history reporting, purchasing Livescan machines to more accurately report NICS records to the FBI, and other various projects. You may go to the Arizona Criminal Justice Commission's website at the following link <http://www.azcjc.gov/criminal-justice-systems> to get a complete background on the Arizona NICS Initiative.

Over the past four years, Arizona has received the following Federal Funds.

2016	\$1.3M	supported 7 projects
2017	\$937,426	supported 9 projects
2018	\$1.5M	supported 12 projects
2019	\$1.4M	supported 5 projects

**(Agencies are required to provide a 10% cash or in-kind match source for NCHIP projects.)*
